EXPERIENCE

Fieldlink, São Paulo, Brazil — *Senior Software Engineer*

AUG 2020 - PRESENT

I joined Fieldlink to develop exclusive features and manage the stack instance of a large enterprise customer from the banking industry.

3C Services, Fortaleza, Brazil — *Senior Software Engineer*

DEC 2013 - DEC 2020

I developed several ERP web applications for 3C Services internal usage. Those were responsible for supporting its semi-industrial processes.

Blockchain Innovations, Henderson, NV — Staff Software Engineer

DEC 2016 - NOV 2019

I worked on a team that developed the Pebblecoin ecosystem: wallet, trade and bet platforms and a tool for sending coins using email.

HelloFlora, Fortaleza, Brazil — *CTO & Software Engineer*

FEV 2013 - JUL 2016

I built and deployed an ecommerce marketplace for local flower shops and gift stores. We sold and delivered more than a thousand orders.

Gigamedia Consultoria, Fortaleza, Brazil — *Software Engineer*

NOV 2011 - MAR 2013

I developed small projects that are still running nowadays (as of 2023): an email marketing tool, an one-page credit card checkout page among others.

DPM Engenharia — *Staff Software Engineer*

JAN 2011 - OCT 2011

Worked on a firmware application of a telemetric monitoring station.

EDUCATION

Universidade de Fortaleza, Fortaleza, Brazil — *Control Engineering Bachelor*

JAN 2004 - DEC 2010

Instituto Superior Técnico, Lisbon, Portugal — *Scholarship Student*

SEP 2006 - JUN 2007

SKILLS

Python, **Javascript**, Dart, SQL, C#, Shell Script, PHP, J2ME, MQL5.

Django, Flask, React, **ReactNative**, Flutter, Xamarin.Forms.

PostgreSQL, PostGIS, **SQLite**, MySQL, **Redis**, MongoDB, Memcached.

Git, Docker, RabbitMQ.

AWS S3, Ec2, Route 53, RDS.

Jira, GitHub, Confluence, BitBucket.

PROFILE

I am a developer focused on web and mobile applications. I have been working remotely with many languages and frameworks both in backend and frontend sides. I enjoy working in a collaborative team environment.

LANGUAGES

English and Portuguese (native)
